	mmol	32	5.2	33g (2 scoops) + 135ml (4.5 fl. oz) water = 661 mOsm/kg			

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on age, body weight and medical condition.

Preparation Guidelines

2 LEVEL SCOOPS PROVIDE 5g PROTEIN EQUIVALENT

Step 1: Measure 2 level scoops into glass/mixing cup.

Step 2: Add approx 135ml (4.5 fl. oz) of cold water.

Step 3: Mix well until all of the powder is dissolved.

Step 4: Drink immediately.

Any unused UCD trio should be stored in a refrigerator and consumed within 24 hours. Shake well before use.

To make more than one serving:

Measure the required number of scoops and add the recommended amount of water. Mix well until all of the powder is dissolved. Store prepared formula in a covered container in a refrigerator and use within 24 hours. Shake or mix well before use.

Innovation in Nutrition

A Nestlé Health Science Company

* Reg. Trademarks of Société des Produits Nestlé S.A., Vevey, Switzerland.

Important Notice

Must only be consumed by people with proven Urea Cycle Disorders and other conditions where the use of essential amino acids is indicated, under strict medical supervision.

Diet must be supplemented with natural protein, water and other nutrients in prescribed quantities to meet fluid and general nutrition requirements.

Suitable from 1 year of age.

UCD trio can be used during pregnancy.

Not for use as sole source of nutrition.

Not for intravenous use

Storage

Unopened: UCD trio should be stored in a cool dry place.

Once opened: Use within one month.

Pack Size

400g (14.11 oz)

Weight

400g

Shelf life

12 months
