

• Single Dose Amino Acids •

Leucine100

Description

A medical food intended for use under medical supervision.

A powdered leucine amino acid medical food on a carbohydrate base.

Indications

For use in the dietary management of inborn errors of amino acid metabolism such as branched chain amino acid metabolism and Urea Cycle Disorders, and is used under strict medical supervision to provide the specific amounts of leucine unable to be achieved by dietary modification alone.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Each 4g packet of Leucine provides 100mg of L-Leucine.

Preparation Guidelines

To be determined by the clinician or dietitian.

May be used in low protein diets in a variety of ways;

- Mixed in with protein substitute.
- Added to modular feeds.
- Incorporated into other permitted food or drink.

IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of amino acid metabolism under strict medical supervision.

Suitable from 1 year of age.

Not to be used as a sole source of nutrition.

For enteral use only.

Nutrition Information

		per 100g	per 4g packet			per 100g	per 4g packet
Calories	kcal	378	15	L-Leucine	mg	2500	100
