

Phenylalanine⁵⁰

Description

A medical food intended for use under medical supervision.

A powdered phenylalanine amino acid medical food on a carbohydrate base.

Indications

For use in the dietary management of inborn errors of amino acid metabolism such as Tyrosinemia, and is used under strict medical supervision to provide the specific amounts of phenylalanine unable to be achieved by dietary modification alone.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Each 4g packet of Phenylalanine⁵⁰ provides 50mg of L-Phenylalanine.

Preparation Guidelines

To be determined by the clinician or dietitian.

May be used in low protein diets in a variety of ways;

- Mixed in with protein substitute.
- Added to modular feeds.
- Incorporated into other permitted food or drink.

IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of amino acid metabolism under strict medical supervision.

Suitable from 1 year of age.

Not to be used as a sole source of nutrition.

For enteral use only.
